- Teamwork
- Problem-Solving
- Flexibility
- Adaptability
- Curiosity
- Communication

LANGUAGE

- Italian: native lang.
- English

HOBBY, INTEREST

- Bike
- Basket
- Playing the guitar

CITIZENSHIP

- Italian

ABOUT ME

Frontend Developer with a strong foundation in HTML, CSS, JavaScript, and Vue, with experience in industrial projects where I collaborated with development teams to optimize website usability and functionality. Currently, I am expanding my tech stack by learning React and deepening my knowledge of AWS, focusing on cloud services to integrate scalable and high-performance solutions. I am looking for an opportunity in an innovative environment that values UX/UI design and cloud technologies. In my free time, I love exploring nature and going on long bike rides to relax.

EXPERIENCE

- Frontend Web Developer** 01/24 - 12/24
Cleverativity - Full Remote
Frontend developer in a company working on industrial/mechanical projects. My responsibilities include:
- Developing responsive and intuitive user interfaces to enhance user experience.
 - Developing and maintaining customizable websites for heat exchangers, based on provided technical inputs.
 - Collaborating with the team to integrate feedback and optimize website functionalities, ensuring client requirements are always met.
 - Utilizing a tech stack (Vue, Quasar, TypeScript) to build reusable and easily maintainable components.
 - Communication & Problem-Solving: Participating in sprint meetings to update the team on tasks and challenges, as well as leading client meetings independently, presenting progress, and addressing technical questions.
 - Independently completing most tasks while effectively resolving technical issues.

EDUCATION

- AWS Solution Architect** 01/25
Three School - Opinno
In-depth study of scalable, secure, and efficient cloud solution architecture. The course enabled me to develop skills in designing advanced AWS infrastructures, focusing on resilience, performance, and cost optimization.
- AWS Cloud Practitioner** 11/24
Three School - Opinno
Introduction to the fundamental concepts of cloud computing and AWS services, with a focus on scalable architectures and best practices for resource optimization. I have gained the necessary skills to understand the core principles of the cloud and support business decisions based on cloud solutions.
- Master Full Stack Web Developer** 09/22 - 02/23
Boolean Careers
Six-month intensive course where I learned the fundamentals of programming for web development from scratch. By the end of the course, I built a web application similar to Airbnb using Vue and Laravel, applying the skills I had acquired.
- Diploma di Perito Tecnico Informatico** 09/13 - 07/19
IIS Verona Trento
Skills in IT systems, information processing, web applications and technologies, as well as networks and communication devices.
