ABOUT ME

Front-end web developer with experience in HTML, CSS, Bootstrap, Sass, and Vue. I'm actively seeking opportunities with a company where I can apply my skills. I'm deeply passionate about technology and have an unwavering drive to enhance my abilities and embrace new technologies.

Currently, I am exploring the world of UX/UI design, captivated by the art of creating user-friendly and visually appealing interfaces that enhance the digital experience.

Thanks to my previous work, I have honed my abilities to communicate and collaborate within a team.

EXPERIENCE

Junior Full Stack Web Developer Trainee

Boolean - September 2022 / February 2023

Intensive six months course, I learned the basics of programming for web development from scratch. Thanks to the theoretical lessons and practical exercises, I managed to carry out various projects and replicate web applications known both on the FrontEnd and BackEnd side. At the end of the course, together with my team we created a final project using frameworks, specifically Vue on the front-end side and Laravel on the back-end side for the creation of a BnB site. We have implemented several features, such as an advanced search system to find accommodation based on specific criteria.

Winery Manager

Cantine Madaudo S.r.l. - April 2020 / August 2022

Wine production and bottling manager. Management of the main activities of the company:
- Product quality control
- Bottling
- Labeling
- Packaging

EDUCATION

Master Full Stack Web Developer

Boolean Careers - September 2022 / February 2023

Intensive course of 700 theoretical and practical hours during which I had the opportunity to study and master the main back-end and front-end technologies such as: html, css, bootstrap, laravel, mysql.

Diploma in Computer Science

IIS Verona Trento - September 2013 / July 2019

Specific skills in the field of IT systems, information processing, Web applications and technologies, networks and communication equipment. Additionally, I have a foundational understanding of programming languages such as C++ and Java.
